

UNIDENTIFIED FLYING OBJECTS

2011 Summer/Spring Catalogue Of Finest Spaceships Available

Dear Customer!

We provide everything that could
a space wanderer ever need on his
deep space travels.

PERSONAL FLYING SAUCER

*Order Your Very
Own Just Today!*

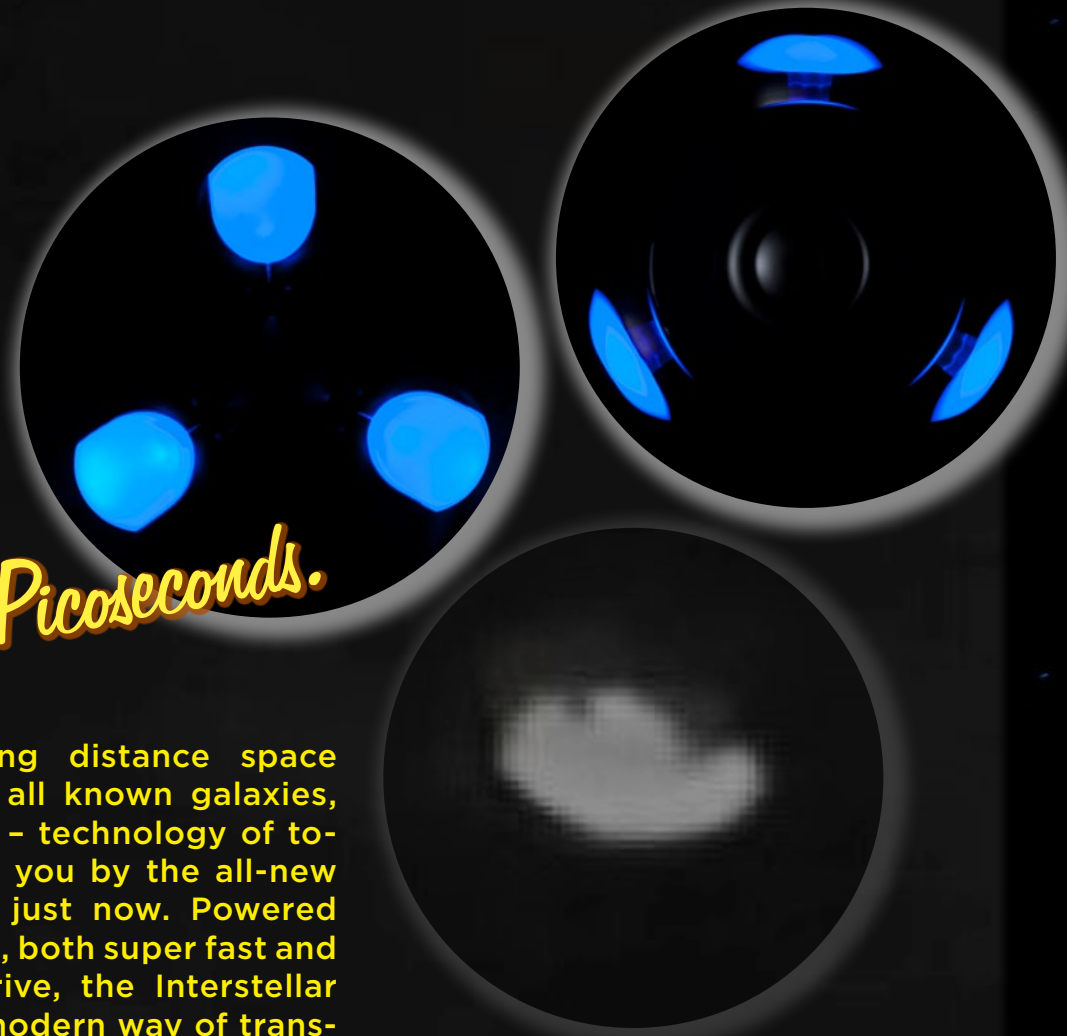

Future means affordable space flights for everyone in the most personal and comfortable way. Introducing the new Roswell-type Personal flying saucer, ideal for short distance flights or running orbital errands. The sky is all yours...

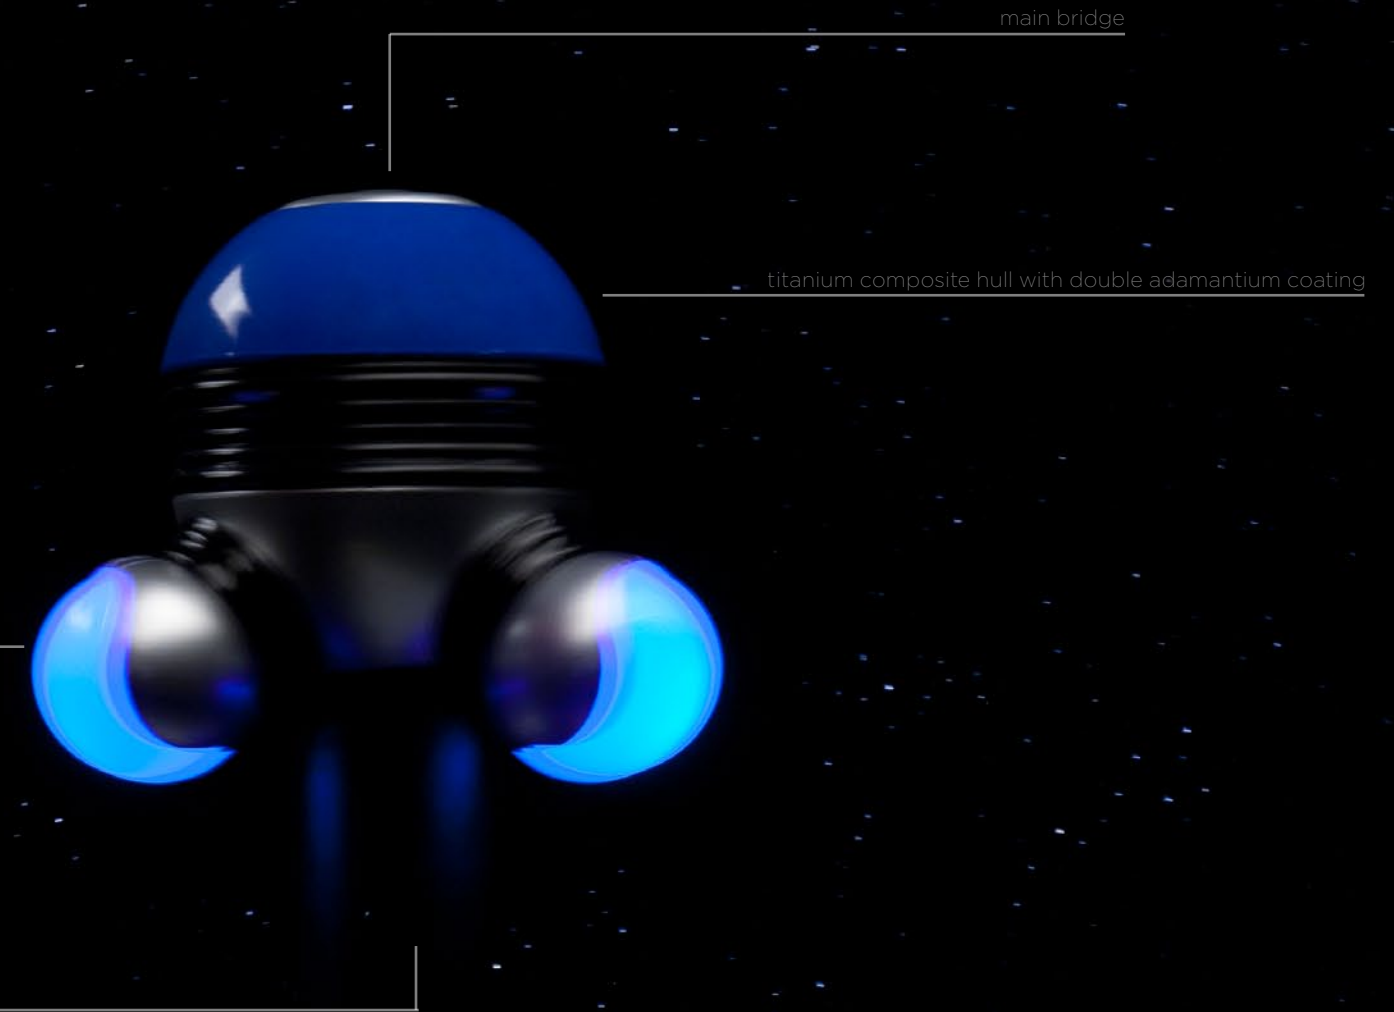

INTERSTELLAR VOYAGER

*Anywhere
In A Few Picoseconds.*

Almost instant long distance space travelling between all known galaxies, planets and moons - technology of tomorrow brought to you by the all-new Interstellar Cruiser just now. Powered by the cutting-edge, both super fast and super safe hyperdrive, the Interstellar cruiser is the true modern way of transportation. It has a capacity of 10000 passengers and provides comfort, entertainment, shopping malls and even a large garden for everyone. Thanks to its plasma weapon and heavy shielding, you don't have to worry about any danger lurking in subspace. So what are you waiting for? Experience exotic vacation at the other side of the universe at any time!

hyperdrive vortex stabilizers

main bridge

titanium composite hull with double adamantium coating

main sublight thrusters

BATTLECRUISER

*...So This Is How
The Mutilated Cows Are Made.*

The Battlecruiser is the most powerful battleship in the whole cosmos. This massive war machine is equipped with the most advanced technology ever developed. Destructive particle weaponry together with the impenetrable energetic shields and strong hull make it invincible in any battle. Faster-than-light jumps capability and the traditional "Battlecruiser operational!" epic welcome message also included!

particle ray - main weapon in use

main weapon chamber and particle accelerator

atmosphere stabilizers

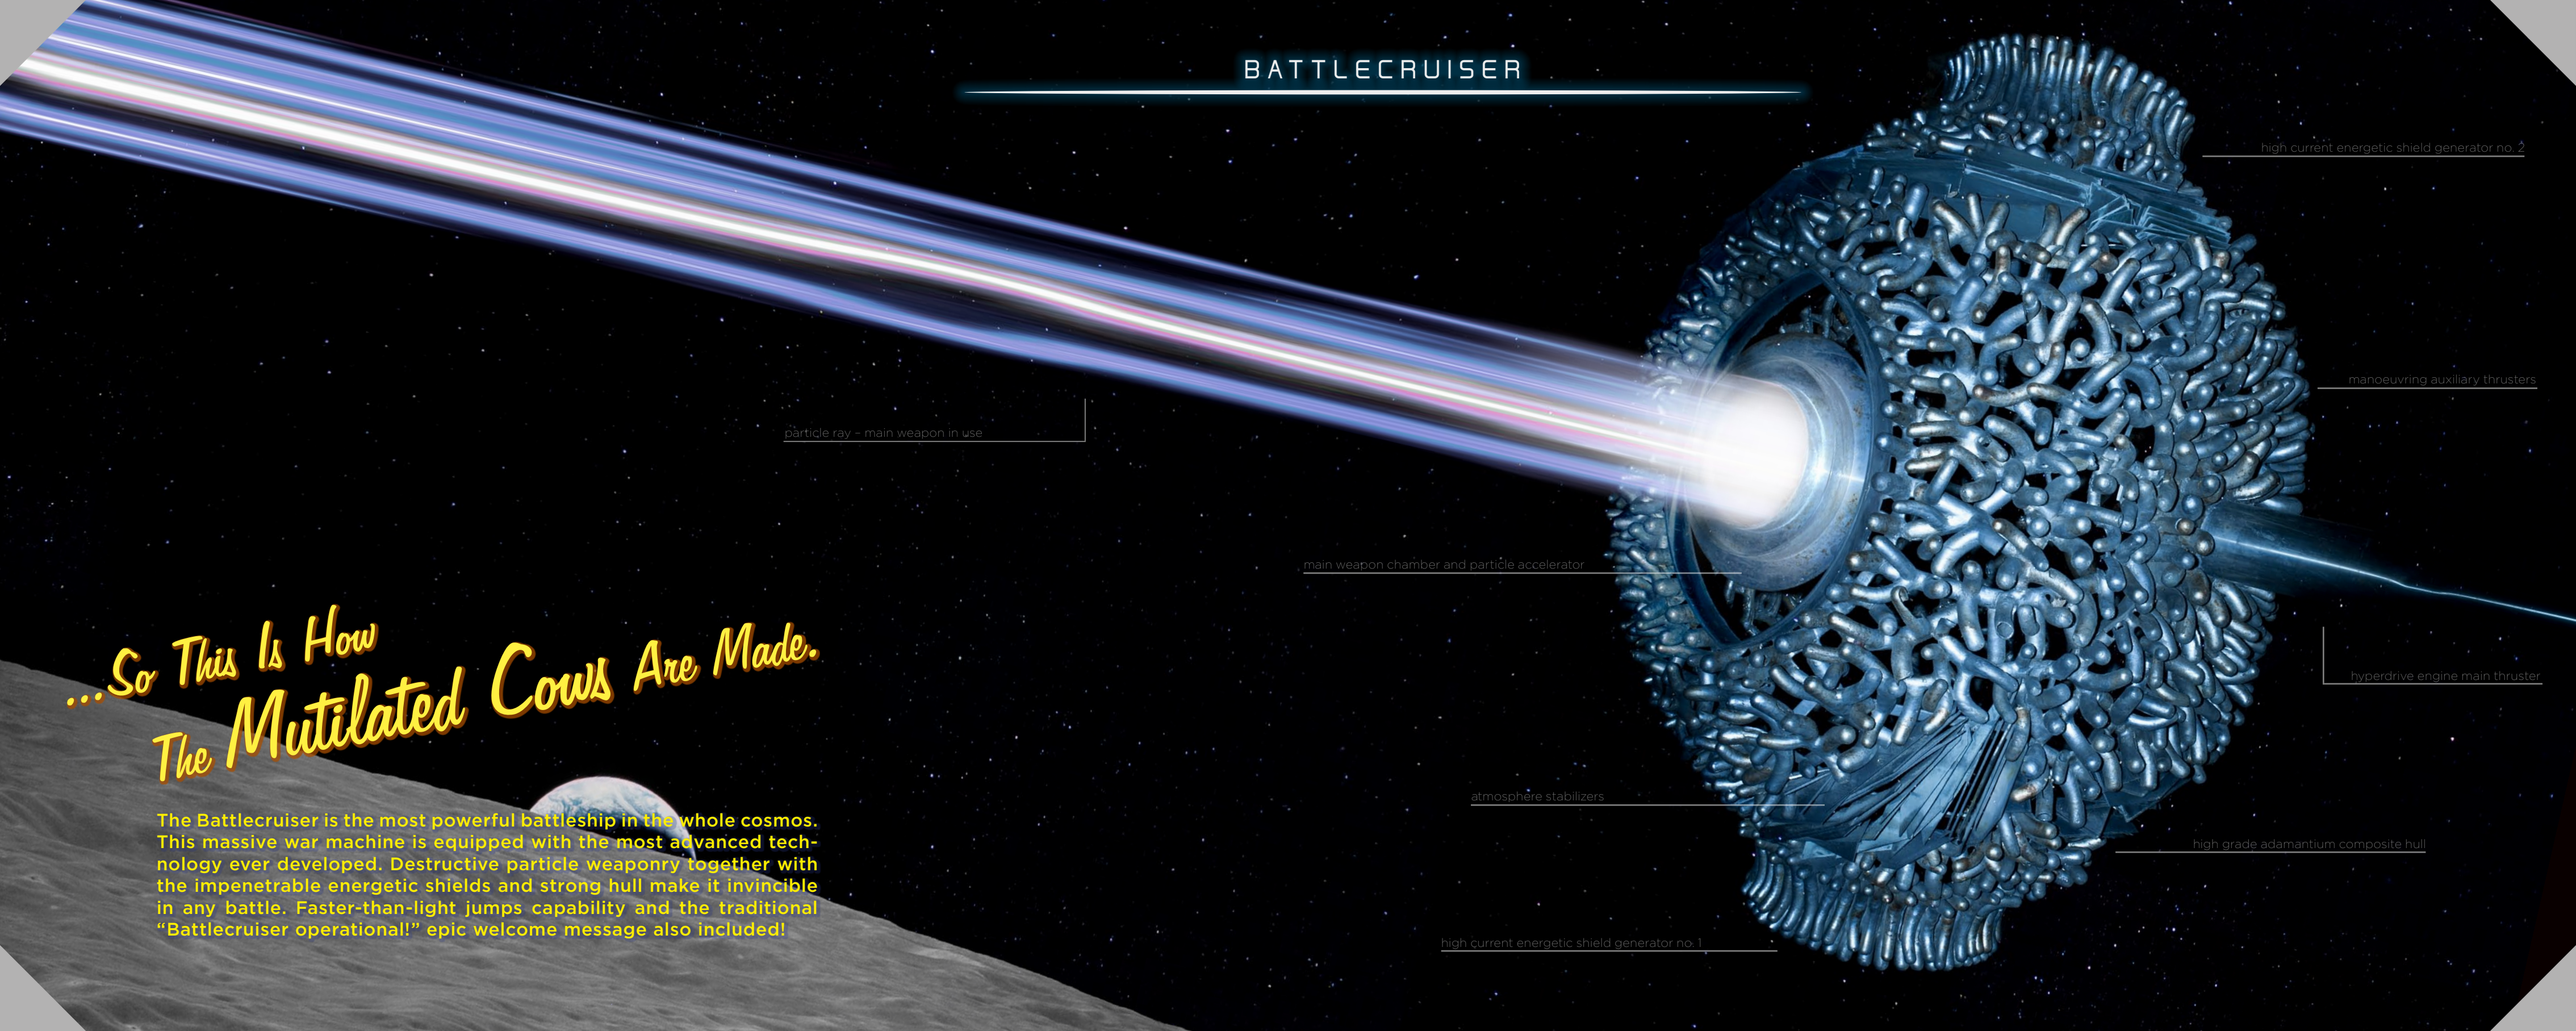

high current energetic shield generator no. 1

high current energetic shield generator no. 2

manoeuvring auxiliary thrusters

hyperdrive engine main thruster

high grade adamantium composite hull

PLANETARY DESTROYER

Baaaaaaang!!!

Don't you think there are too many planets out there? No problem...just shoot the ugly ones down with the upgraded Deathstar-class Planetary Destroyer! This colossal weapon of mass destruction measures 1 kilometre in diameter and incorporates massive laser gun capable of destroying whole planets on one shot. It can also house thousands of small close-battle drones. Note that unlike some of our competitors, we do not sell unfinished products...

plasma/energy shielding

10 cold fusion reactors and shield generators

laser beam chamber/hangar door

modified vimana-type gyroscopic propulsion system

10 billion degree heat resistant adamantium composite hull with triple coating

No Need For Bravery!

Fleeing from battle like a boss! We always care about your safety. Each of our ships come equipped with escape pods. These state-of-the-art devices are powered by the psi-engine especially developed for such applications. Your own brain waves will get you to safety, while you are in the state of deep hibernation! Note that the colour is fully customizable.

ESCAPE POD

Let's Play Doctor!

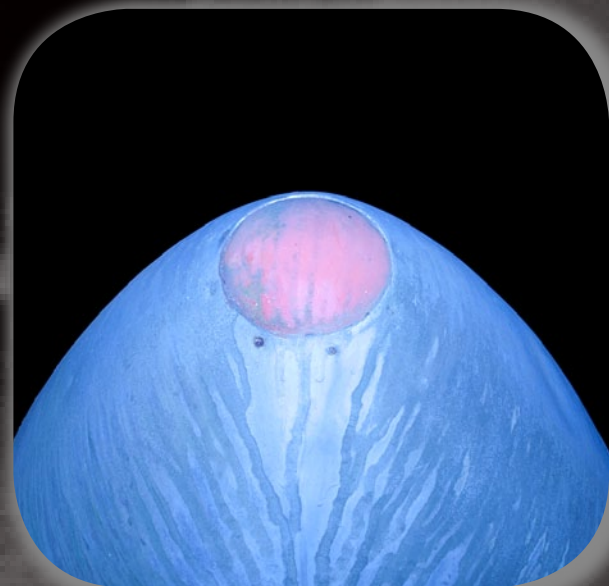

You like exploring new things, right? Or people... So just choose anything from surface and beam it up with the ultra fast anti-gravity abduction beamer of the all-new Abduction carrier. Fast as never before with its silenced vimana-type propulsion system and stealth mode you just can't get caught! And once you got your new toys on board, the fun is ready to begin in one of the 10 individual operation rooms. Side laser weapons for some nice animal slicing also included. So could you pass me the dissector, sister?

ABDUCTION CARRIER

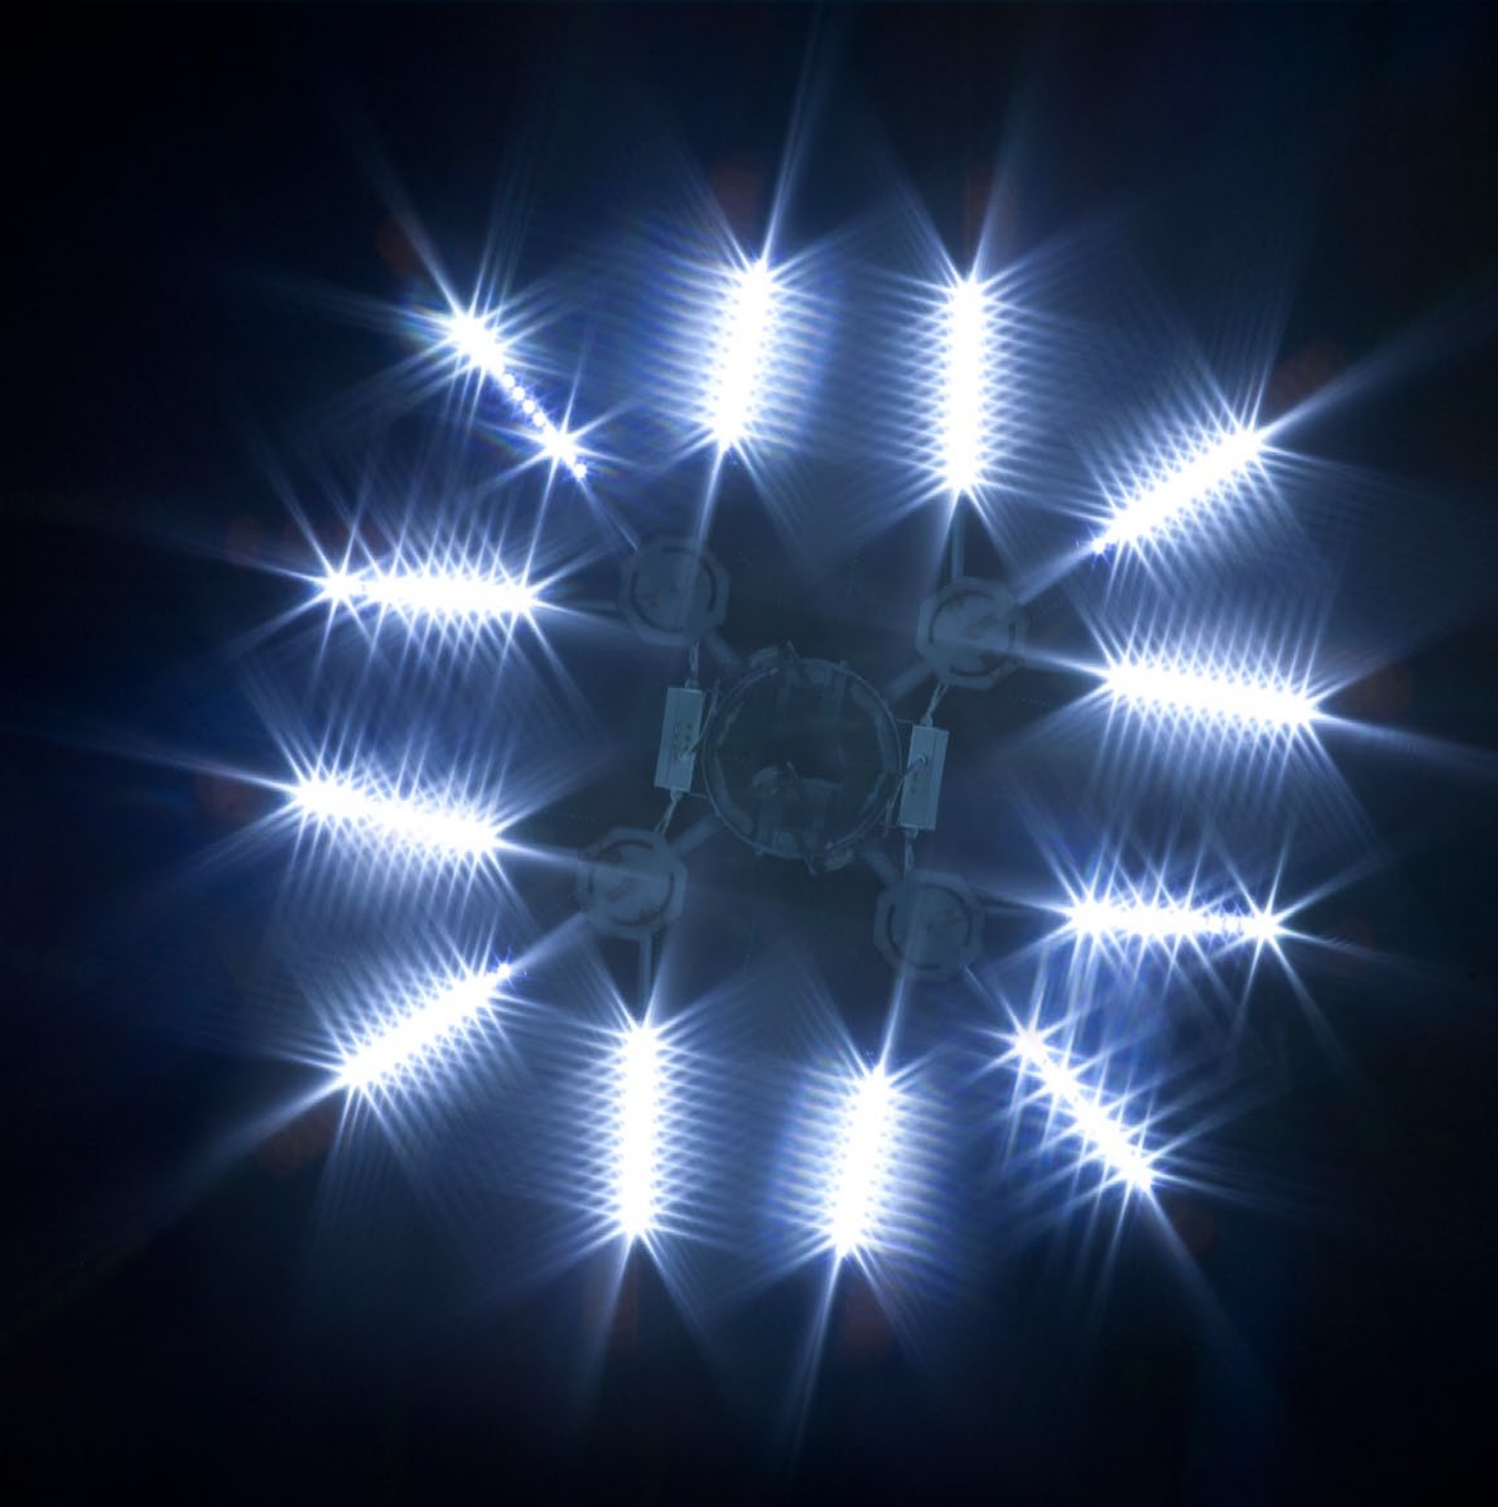

The Choice Is Yours!

We manufacture quite a big amount of engines that you can choose to equip your ship with. From left to right: Vimana-type gyroscopic flying saucer propulsion, Plasma main thruster, Blue energy hyperdrive with cold fusion reactor, Faster-than-light push-pull jumping engine, Psi-engine, and Ion acceleration thrusters. Note that not all kind of engines is available for every ship. Please consult our nearest dealer for more information...

PROPULSION

SURFACE MODULE

One Step...
...On Sixteen Wheels?

Exploring new worlds has never been so easy! Fully remotely controlled Apollo-class Surface Module does all the dirty work for you. Sixteen individually moving wheels are able to cross any surface and ultra sensitive long-range sensors provide all kind of information you need.

long range sensors

main shell with subspace remote receiver

ultra hard tires

rugged titanium plated wheels

GARDEN OF EDEN CREATION KIT

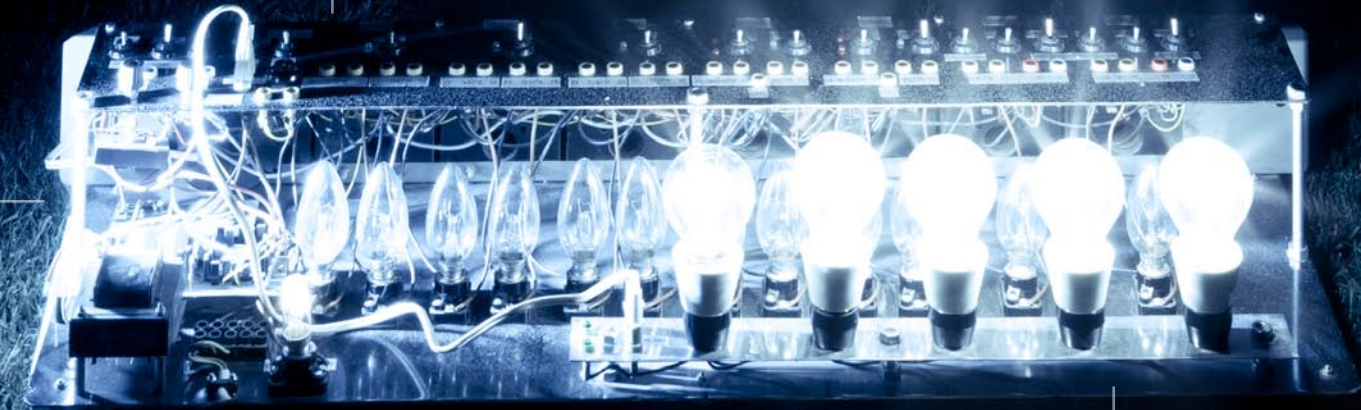

*New Homeworld In Less Than 7 Days
Faster Than Any God Can Do...*

Garden Of Eden Creation Kit is super effective terraformation device. It is capable of creating new beautiful and organic environment full of green in almost any conditions. Transforming completely inhabitable planets or moons is not an issue anymore. Necessary equipment for all colonizers creating humankind outposts in deep space!

organic creation modules

blue energy power source

metamorphosis process in use

rugged steel chassis

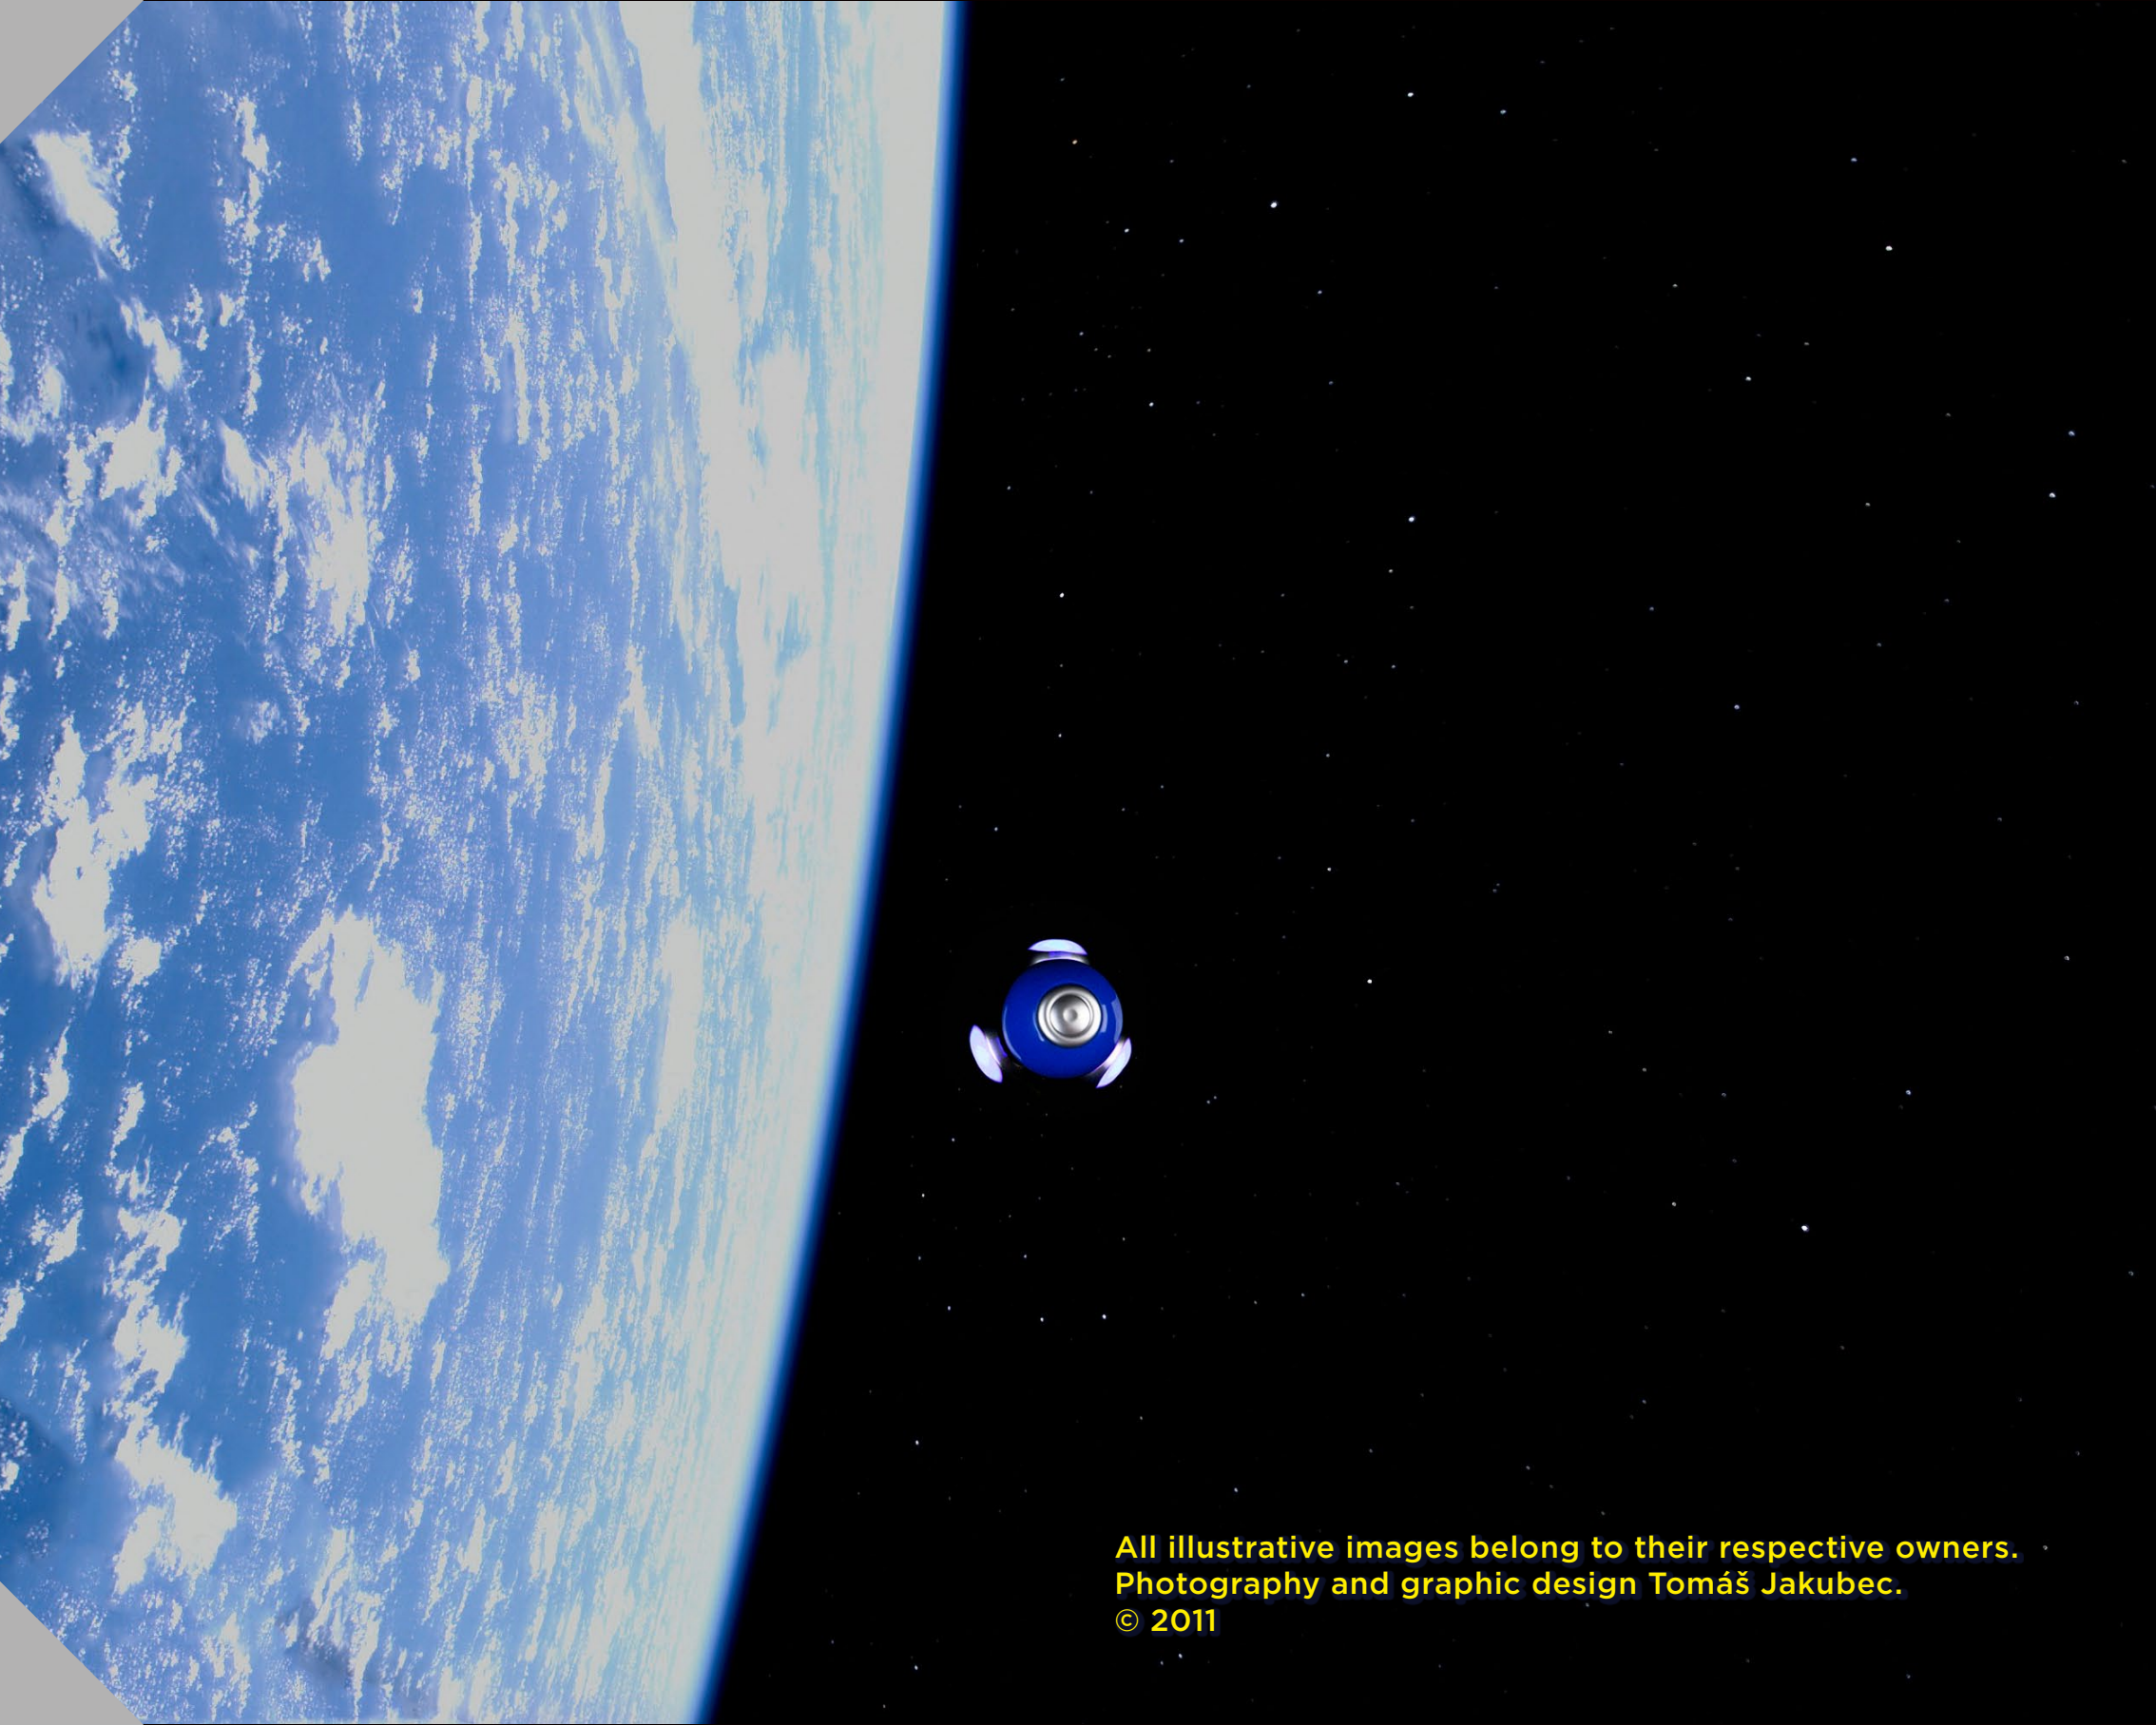

main terraformation generators
