Result of the plagiarism test:

The work was assessed in terms of plagiarism with the result 5% identity. The work is not plagiarism.

Overall evaluation of the thesis:

The resulting mark is not the average of all of the abovementioned evaluations. The mark is awarded by the thesis supervisor according to their deliberations and the ECTS classification scale:

A – Excellent, B – Very good, C – Good, D – Satisfactory, E – Sufficient, F – Insufficient.
Grade F also means “I do not recommend this thesis for defence.”

I recommend this diploma thesis for its defence and suggest the following evaluation:

A - Excellent.

In the case of an “F – Insufficient” grade, provide comments and the shortages of the thesis and the reasons for this assessment.

The student came up with this topic from his side. The topic is of current importance and necessity. The student worked independently and was passionate about the system implementation. The student has proven his skills to understand new technologies and implement them into the S.K.A.S. (Student Knowledge Assessment System) developed by the author of the thesis. Hopefully, the system will be under continuous improvement with new available LLMs. in future.

I recommend the thesis for the defence with the grade A - excellent.
